VACANCY ANNOUNCEMENT

Bisha Mining Share Company is inviting applicants for the following position for Bisha site project.

1. Position: Rigger & Cranage Specialist

Department: Process Plant
Number required: One (01)

Primary Purpose

- A rigger makes use of cranes, manitous and forklifts to transport, load and offload heavy equipment, machinery, or large heavy cargo such as fixed plant equipment, construction equipment, containers, mobile equipment in the opencaſt, processing, and underground operations.
- Riggers are also responsible for preparing the materials to provide access to elevated tasks by means of scaffolding.

ESSENTIAL FUNCTIONS

- Setting up and assembling the rigging equipment required for lifting and moving heavy loads.
- Communicating with crane operators to guide them in moving objects and depositing them in the correct location.
- Inspect rigging equipment regularly, identify potential hazards, and take corrective actions to mitigate risks.
- Inspecting and maintaining the rigging gear, as well as repairing or replacing worn-out or damaged components.
- Perform rigging studies to plan a lift and to ensure that the rigging equipment and cranage can safely handle the weight of the load.
- Train national rigging workforce by developing training programs and facilitating the programs.

TASK DESCRIPTION EXPANDED TO CORE PERFORMANCE AREAS

- Planning
- Implementation of the Plan
- General Rigging
- Scaffolding
- Lifting
- Writing Reports & Data Control
- Demonstrate autonomy in learning through

UNIQUE REQUIREMENTS / OTHER INFORMATION

- Candidate must be physically medically fit
- Candidate must be qualified as a rigger
- Must be able to work outside exposed to heat, wind, and dusty environments
- Must be able to work at heights
- Underground experience
- Processing plant experience
- Opencaſt experience
- LMI (lifting machinery inspector)
- Rigging Training Coordinator/Facilitator/Moderator

Qualifications:	Knowledge and Experience
o Technical College Mechanical /Rigging/ Cranes Diploma	o 5+ years relevant experience
o Rigging Trade	
Technical Skills	Behavioral Skills
o Attention to detail, Problem solving skill, High level of accuracy, Ability to work towards ſtrict deadlines, Rigging & Crane experience, Supervisory experience	o Communication (English), Self-motivation, Prioritizing skills, Coordination skills, Team and leadership skills, Specialized organizational skills (evaluating, planning and scheduling work)

2. Position: Project Field Engineer

Department: Process Plant
Number required: Two (02)

Primary Purpose

- Supervise different projects at the same in a ‘hands on’ role with several both skilled and semi skilled national artisans to construct new buildings (Steel Structures, Electrical Civil Works, Pipelines and Excavations) whilst using equipment and personal available on the Mine. Perform regular Safety Inspections, following a scheduled work plan, reporting back on work progres and ensure costs are within the budget.
- In addition, position is responsible to identify and order relevant parts and materials required for construction, following site procurement procedures. The position will include overall civil, ſtructural, electrical and mechanical construction responsibilities ensuring all works carried out are done in a safe manner, Engineering Standard, in compliance to site HSEC regulations.

The position also include to identify and carried out standard material used and QAQC in Project implementation.
